## *Compliance – administer fatigue risk and CoR*

### Units of Competency:

- TLIF0002 Administer chain of responsibility policies and procedures
- TLIF0006 Administer a fatigue risk management system

### Overview

This course consists of units of competency in the Transport and Logistics Training Package; it is delivered in a classroom environment, encouraging interaction and knowledge sharing between participants.

This course is targeted at allocators, compliance managers, directors, board members and auditors of freight forwarding companies, whose role includes responsibility for compliance by the Regulator or who may be held professionally or personally responsible under CoR.

A work based project is to be completed in the participant's own time at the completion of the classroom component of this course. This should be submitted within 30 days of completion of the course.

### Who is this course for?

Members of logistics organisations whose role includes responsibility for compliance or who may be held professionally or personally responsible under CoR.

Participants should have:

- Analytical skills to identify feature of compliance systems as applied to the workplace
- Strong literacy skills in order to interpret Regulations
- Planning and organisational skills
- Familiarity with technology required to manage systems
- Familiarity and experience of a road transport operator

Pentrans Consulting recommends candidates hold the following units of competency or equivalent experience:

- TLIF0001 Apply chain of responsibility legislation, regulations and workplace procedures
- TLIF0005 Apply a fatigue risk management system
