Vehicle Operation – defensive driving and CoR

Units of Competency:

- TLIC3037 Apply safe heavy vehicle driving behaviours
- TLIF0009 Ensure the safety of transport activities (Chain of Responsibility)
- TLIF1001 Follow work health and safety procedures

Overview

This course consists of units of competency in the Transport and Logistics Training Package; it is delivered in a classroom environment, encouraging interaction and knowledge sharing between participants, with practical application of skills in an actual work environment.

Completion of this course may be used as a skills currency assessment or refresher for compliance or employment capability purposes.

Who is this course for?

This course is targeted at licensed driver operators of heavy commercial vehicles.

Participants should have literacy and numeracy skills to the level of completing workplace forms.

Course content

- Legislation, regulations and codes of practice
- Hazard and risk assessment and minimisation
- Workplace policies, procedures and industry best practice
- Defensive and efficient driving techniques
- Warning systems, controls and indicators
- Systems operations including tyres, steering, electrical and exhaust systems, brakes, fuel
- Identifying inconsistencies with optimum performance
- Undertaking pre-and post-operational checks and relevant document completion
- Height, width and mass limitations of bridges, tunnels and other structures
- Typical problems that may arise with technology used for navigation
- Breaches and consequences under CoR

Learning outcomes

On completion of the course participants should be able to:

- Applying relevant regulations, legislation and workplace procedures
- Assess risks and hazards relevant to optimum operation of vehicle and trailers
- Understand and use correct transmission handling techniques
- Reporting and documentation requirements
- Correctly identify hazards and issues in components of vehicle and trailer
- Efficiently and safely operating the vehicle through a pre-determined route
- Understand their personal obligations and consequences under chain of responsibility

Assessment

Participants engage in:

- Problem solving activities and scenarios
- Short answer questions – written
- Multiple choice questions
- Group participation
- Work type activities – operating a vehicle through a pre-determined route

Award

This is a nationally recognised training program. Participants who successfully complete the assessment for this course will receive a Nationally Accredited Statement of Attainment for the units of competency outlined above.

Course duration

4 hours classroom, 4 hours practical, including worktype assessment
